

CCIP BootCamp

The Power Program

Students striving for CCIP certification have to participate in four training courses and take the corresponding exams. Accordingly, the certification usually takes several months. With our CCIP® BootCamp, you can achieve the certification a lot faster and cheaper!

In the ten-day BootCamp, the contents of the courses ROUTE - Implementing Cisco IP Routing, QOS, BGP und MPLS will be elaborated in a concentrated manner. For this purpose, the course hours have been extended, lasting from 8:00 a.m. to 6:00 p.m., and, in addition, the Cisco labs are available day and night.

The relevant exams (642-902 ROUTE, 642-642 QOS, 642-661 BGP, and 642-611 MPLS, or 642-691 BGP+MPLS) are included in the course price. They can be taken in our in-house test center at the perfect point in time. You can repeat one test free of charge.

During the entire certification process, experienced Cisco trainers will be available as your tutors.

Course Contents

- Contents of the Course ROUTE - Implementing Cisco IP Routing
- Contents of the Course QOS - Implementing Cisco Quality of Service
- Contents of the Course BGP - Configuring BGP on Cisco Routers
- Contents of the Course MPLS - Implementing Cisco MPLS 2.3

In this course, each student will receive the original Cisco Systems course documentation in English language.

Target Group

This power program is tailored to students striving to acquire the comprehensive know-how for the CCIP certification in a compact and highly efficient manner and quickly take the exam.

Knowledge Prerequisites

A valid CCNA certification and practical experience with Cisco routers, particularly on the WAN sector, are required. The tight time schedule and multitude of discussed topics require a high degree of motivation and commitment.
