## The Power Program

Students striving for CCNA certification have to participate in two training courses and take the corresponding exam. Accordingly, the certification usually takes several weeks. With our CCNA BootCamp, you can achieve the certification a lot faster and cheaper!

Good preparation is essential for a successful exam-this is why we will send you the training documentation of the courses Interconnecting Cisco Network Devices Part 1 (ICND 1) and Interconnecting Cisco Network Devices Part 2 (ICND 2), as well as material for systematic exam preparation prior to the course (after receipt of payment). Moreover, you will receive a comprehensive instruction for preparation. To make sure you will have enough time for studying the course documentation, we recommend making an early booking.

In the five-day BootCamp, the exam-relevant contents of the courses ICND 1 and ICND 2 will be elaborated in a concentrated form. For this purpose, the course hours have been extended, lasting from 8:00 a.m. to 6:00 p.m., and the Cisco labs are available day and night.

Exam 640-802 (CCNA®) is included in the course price and can be taken in our in-house test center. If required, you can repeat this test once free of charge.

During the entire certification process, experienced Cisco trainers will be available as your tutors.
