## Cisco Wireless Mesh Networking

This training session is a one-day instructor-led technical course that introduces the new Cisco Aironet 1500 Series Lightweight Outdoor Mesh Access Point. The course provides a technology overview, design and deployment options, and product configuration with hands on labs.

### Course Contents

- Components, features, and functionality of the Cisco Aironet wireless mesh networking solution.
- Deployment options for the Cisco Aironet 1500 Series Lightweight Outdoor Mesh Access Point.
- Performance, throughput and distances.
- Physical and technical characteristics of the Cisco Aironet 1500 Series.
- Factors to be considered during outdoor WLAN deployment.
- RF theory as it relates to Wireless LANs.
- Wireless Network design issues:
- Coverage areas Antenna theory and operation
- Site Survey procedures
- Installation and deployment of outdoor Wireless LANs.

### Target Group

Employee  
Customer  
Channel Partners/Resellers

### Knowledge Prerequisites

To realize the full benefit from this course, the student should have attended Cisco AireSpace Installation, Administration and Maintenance (CAIAM) 3.0 or the newer version of the course: Cisco Unified Wireless Networking (CUWN)

### Reservation and Registration

We will be glad to make a free and non-binding course reservation for you for the duration of two weeks. On [www.expertech-training.com](http://www.expertech-training.com) under *Registration*, you can conveniently make course reservations, registrations, and hotel reservations. Alternatively, call us under +49 6074 4868-0.

For closed groups of participants, we can modify the course contents according to your requirements. Do not hesitate to contact us!
