

# Crossbeam VSX Workshop

# Crossbeam VSX Workshop

This workshop is designed as an additional training day subsequent to the Crossbeam XOS Essentials course. It deals with the installation of Check Point VSX NGX on a Crossbeam XOS chassis. In addition to the installation, advanced topics like dynamic routing and debugging will also be treated.

## Course Contents

- Check Point VSX NGX R67 Objekte and their function
- Preparing the X-Series platform for VSX installation
- Installing and configuring the VSX application
- Installing a VSX Cluster on a Crossbeam VAP Group
- Optional: Online Test for the certification

## Target Group

The course addresses administrators and technicians who wish to install, configure, and operate Check Point VPN-1 VSX NGX on an X-Series chassis.

## Knowledge Prerequisites

Participants require profound networking knowledge, particularly on TCP/IP, routing, and security. Moreover, know-how of the Crossbeam system architecture as taught in the course Crossbeam XOS Essentials is required.

## Reservation and Registration

We will be glad to make a free and non-binding course reservation for you for the duration of two weeks. On [www.expertech-training.com](http://www.expertech-training.com) under *Registration*, you can conveniently make course reservations, registrations, and hotel reservations. Alternatively, call us under +49 6074 4868-0.

For closed groups of participants, we can modify the course contents according to your requirements. Do not hesitate to contact us!
