

DCUCI

DC Unified Computing Implementation

This 5-day hands-on course enables the student to support UCS. The student also learns how to implement UCS in an enterprise Data Center routing and switching infrastructure with the next-generation Cisco Nexus product family and includes SAN interconnectivity with FCoE and Nexus 1000

This course is designed to expose students to the fundamentals of the Cisco Unified Computing System. Furthermore, this course goes into both conceptual and physical details in order to illustrate the use and implementation of the Cisco Unified Compute System.

As a preparation for the course, the documentation contains two e-learning modules on virtualization technologies and UCS basics. The course prepares for the exam 642-994, which is required for the Cisco Unified Computing Technology Support Specialist and Cisco Data Center Unified Computing Support Specialist.

Course Contents

- Understanding the Benefits of the Cisco Unified Computing System
- Understanding the Cisco Unified Computing System
- Understanding Cisco UCS Connectivity
- Understanding the Cisco UCS Manager
- Establishing Compute Node Connectivity
- Implementation of Server Resources
- Maintaining a Cisco Unified Computing System
- Cisco Unified Computing System Deployments
- Networks in a Virtual Server Environment

Reservation and Registration

We will be glad to make a free and non-binding course reservation for you for the duration of two weeks. On www.expertech-training.com under *Registration*, you can conveniently make course reservations, registrations, and hotel reservations. Alternatively, call us under +49 6074 4868-0.

For closed groups of participants, we can modify the course contents according to your requirements. Do not hesitate to contact us!
