

ExtremeXOS: Implementing Advanced Security

ExtremeXOS: Implementing Advanced Security

The ExtremeXOS Implementing Advanced Security (EIAS) training course provides instructor-led lectures and laboratory exercises. The course presents concepts and commands required to secure Extreme Networks switches and control traffic within a network. This course is a prerequisite for ENS Level certification.

Course Contents

- Course Introduction
- Security and Traffic Engineering
- Access Control Lists (ACLs) and Policies
- Denial of Service Attacks and Countermeasures
- Network Login
- Policy-based Quality of Service (QoS)
- sFlow

Target Group

The primary audience for this course is network switch administrators tasked with securing and controlling the traffic in an Extreme Networks switch environment.

Knowledge Prerequisites

Students need the ENA certification or equivalent skills and experience. ExtremeXOS: Operations and Configuration is recommended as a preparation. Additionally, solid theoretical and practical understanding of networking basics, TCP/IP addressing, subnet masks, bridging, and other LAN fundamentals is required as well as hands-on experience installing, configuring, and troubleshooting Extreme Networks switches.

Reservation and Registration

We will be glad to make a free and non-binding course reservation for you for the duration of two weeks. On www.expertech-training.com under *Registration*, you can conveniently make course reservations, registrations, and hotel reservations. Alternatively, call us under +49 6074 4868-0.

For closed groups of participants, we can modify the course contents according to your requirements. Do not hesitate to contact us!
