

# IBM Tivoli Netcool/OMNIBus Administration and Configuration

This course builds on IBM Tivoli Netcool/OMNIBus User. Learn about OMNIBus installation and licensing procedures, configuring security and component communications, and product architecture and implementation. Examine examples of ObjectServer SQL syntax and automations. The main focus is on the deployment, configuration, and everyday maintenance of Netcool/OMNIBus from the administrators perspective. Begin hands-on labs with OMNIBus installation on a classroom server; then cover the standard configuration objects. Complete practice exercises that demonstrate how to perform administrative tasks using the OMNIBus Administrator Graphical User Interface (GUI), command line tools, and process control. Also, learn about the administration and configuration of OMNIBus in a network and systems environment.

### Course Contents

- Installation, The directory structure
- Communications protocols, The ObjectServer
- Basic probes, Process control
- Failover and fallback, Gateways
- ObjectServer SQL, Menus and tools
- Advanced probe techniques, Automations
- Administration, Architecture

### Target Group

This is an intermediate course for Network Operations Center individuals, administrators, and individuals who install Netcool/OMNIBus or perform administration and configuration tasks. Get detailed cross-platform information about administrative tools, functions, and capabilities. Aids also in the design and configuration of OMNIBus 7.1 in a network environment.

### Knowledge Prerequisites

You should complete: IBM Tivoli Netcool/OMNIBus User

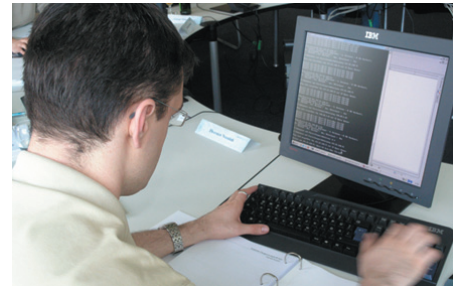

You should also have the following skills and knowledge: Practical understanding of UNIX system administration, including: UNIX Editor vi; UNIX and Linux directory and command-line structures; basic utilities such as PS, GREP, Telnet, and File Transfer Protocol (FTP); diagnosing and resolving causes of software problems, TCP/IP, network management, and Simple Network Management Protocol (SNMP) concepts, Basic shell scripting or programming, and database terminology.

### Reservation and Registration

We will be glad to make a free and non-binding course reservation for you for the duration of two weeks. On [www.expertech-training.com](http://www.expertech-training.com) under *Registration*, you can conveniently make course reservations, registrations, and hotel reservations. Alternatively, call us under +49 6074 4868-0.

For closed groups of participants, we can modify the course contents according to your requirements. Do not hesitate to contact us!
