

IBM Tivoli Netcool/Proviso 4.4.1 Installation

TN11E0

IBM Tivoli Netcool/Proviso 4.4.1 Installation

Netcool/Proviso is performance management software that provides fast network reporting suitable for trend analysis, troubleshooting, capacity planning, and SLA objectives. These highly customizable web-based reports are appropriate for audiences including network operations staff, business decision makers, and customers of service providers. The highly flexible and scaleable architecture allows for full integration into a service provider or enterprise scale OSS infrastructure. This two day, instructor-led, lab intensive training class is provided to give hands-on experience installing the Netcool/Proviso product.

Course Contents

- Netcool/Proviso modules
- Netcool/Proviso architecture
- Netcool/Proviso installation tasks
- Netcool/Proviso single-server installation

Target Group

This course is designed for implementation partners beginning the Netcool/Proviso technical enablement set of training courses. Users, administrators, business partners, and deployment professionals will benefit from this course.

Knowledge Prerequisites

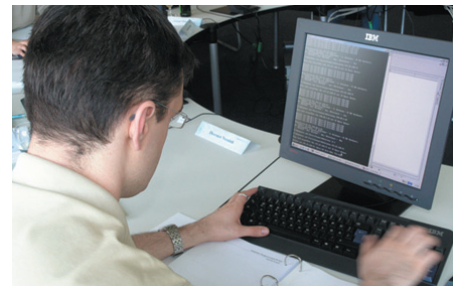

This course requires basic knowledge of system administration concepts and strong UNIX administration skills.

Reservation and Registration

We will be glad to make a free and non-binding course reservation for you for the duration of two weeks. On www.expertech-training.com under *Registration*, you can conveniently make course reservations, registrations, and hotel reservations. Alternatively, call us under +49 6074 4868-0.

For closed groups of participants, we can modify the course contents according to your requirements. Do not hesitate to contact us!

2 days €1,790 exclusive of V.A.T.
